Education

Swami Keshvanand Institute of Technology (SKIT), Jaipur, India
B.Tech in Computer Science & Engineering

2023 – 2027
CGPA: **9.4 / 10** (Current)

Matrix Sr. Sec. School, Pipliyanganar, Gokulpura
Class XII — RBSE

2022
90.80%

Indian Public Sec. Sch, Mandawa (Jhunjhunu)
Class X — RBSE

2020
82.33%

Technical Skills

- Languages:** Python, C++, C, SQL
- Libraries & Frameworks:** NumPy, Pandas, Matplotlib, Scikit-learn, Flask, Bootstrap
- Web & Database:** HTML, CSS, PHP, MySQL
- Tools:** Git, GitHub, VS Code, Power BI
- Core Competencies:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)

Work Experience

Coplr

Jun 2025 – Jul 2025

Data Analysis and Engineering Intern

- Processed and analyzed **10,000+** records using **Python** (Pandas, NumPy), eliminating **35%** data inconsistencies and ensuring clean, reliable datasets for reporting.
- Optimized complex **SQL** scripts involving **4** normalized tables, reducing query latency by **20%** and ensuring faster data retrieval for analytics.
- Developed **2** interactive **Power BI** dashboards integrated with **Azure Data Lake**, enabling real-time data monitoring and reducing manual reporting effort by **3 hours** weekly.

Kistechno Software

Jun 2024 – Jul 2024

Web Development Intern

- Developed **8** responsive web pages using **HTML5**, **CSS3**, and **Bootstrap**, ensuring seamless cross-device compatibility across **3** screen sizes — mobile, tablet, and desktop.
- Built **PHP** backend with secure form handling, session management, and dynamic content rendering to support key website functionalities.
- Maintained clean **Git** version control history across **2** branches, ensuring structured collaboration and zero merge conflicts throughout the **4-week** development cycle.

Projects

Intelligent Expense Tracker | GitHub

Flask, Pandas, Scikit-learn, Render

- Architected a full-stack **Flask** application featuring **secure authentication** and **CRUD operations**, enabling reliable data management for multi-user environments.
- Implemented **Scikit-learn** classification models (**Random Forest**, **Logistic Regression**) for automated expense categorization, achieving **30%** higher accuracy in anomaly detection.
- Engineered **Pandas** data pipeline to automate weekly **Excel** report generation with multi-column analysis and deployed on **Render** with live hosting, reducing manual reporting overhead by **50%**.

Village Era Products | GitHub

PHP, MySQL, JavaScript, Bootstrap 5

- Developed a full-stack **e-commerce platform** for local artisans using **PHP**, implementing modular architecture for product cataloging, cart management, and secure order processing.
- Designed a **MySQL** relational database with structured schemas, applying primary/foreign key constraints to ensure **data integrity** and efficient retrieval across all modules.
- Built **8** responsive web interfaces using **Bootstrap 5** grid system with **JavaScript** form validation, ensuring mobile-first experience and secure data flow.

Achievements & Certifications

- Competitive Programming:** Ranked in top **20%** globally on **LeetCode**; solved **500+** algorithmic problems on **LeetCode** & **GeeksforGeeks** with focus on **DSA** and **problem solving**.
- Hackathons & Events:** Participated in **LNM Hacks 6.0** (2024); attended **Google DevFest 2024**, gaining exposure to **AI** & **Cloud** technologies.
- Certifications:** **NPTEL** – Problem Solving in C | **Databricks** Machine Learning Fundamentals | **Databricks** Generative AI Fundamentals.
